

ALL ACTION WEAR INTERNATIONAL

"Specialised Armour Solutions For Personal Protective Equipment"

F3 COMPACT

Effective

Capable of detecting all metal and minimum metal mines at full sensitivity regardless of the mineralised content of soil.

Easy to Use

Well positioned and intuitive controls.

Compact

A compact mine detector with full performance.

Rugged

Constructed from impact resistant materials and designed to survive in any operating environment.

Safe

Uniform sensitivity across the surface of the search head eliminating any blind spots – provision of a 'Confidence Tone' during operation and comprehensive Built-In-Test systems to monitor and confirm detector functionality.

Features

- Variable sensitivity through the selection of seven uniquely combined audio and sensitivity configurations
- Customised sensitivity using Mlnelab's configuration software
- Minimises risk of Initiating magnetic Influence mines
- Fully adjustable for operator comfort
- Fully enclosed and protected
- Fast and accurate pinpointing
- Audio and visual indication
- RS232 port for data transfer
- Adjustable search height
- Simple to operate
- Water resistant

Specifications

Packed Length	380mm / 15ins
Operating Weight	2.6kg / 5.7lbs
Transmission	MultiPeriod Sensing BiPOLAR
Audio Output	Internal Speaker
	Earset (Opttons: 1. Speaker ON / 2. Speaker OFF)
Water Resistant	IP68
Batteries	4 x C Cell (Alkaline or Rechargeable)
Data Output	RS232
Visual Display	Nine LED
Battery Alarm	Visual and Audio
Operating Temperature	-30C to 60C / -22F to 140F
Design Standard	MIL STD 810 G

As a world leader in metal sensing technology, Minelab strives to continually improve its product range. Minelab reserves the right to change specifications without notice.

3 Steps to Deploy Detector
